

Dear Friends,

“Education is the transmission of civilization”

We at Saint John the Baptist Church believe that the youth are our ambassadors in the community, and the bridge that will sustain our future. Giving them the tools to navigate the sophisticated and diverse world we live in, while preserving their identity has been growingly challenging.

As a token of appreciation and encouragement, and as a reminder that the church values their future, we would like to present young parishioners who are pursuing higher education with a symbolic monetary gift. Eligible parishioner applicants who submit proof of attending higher level education with a good grade point average could receive a \$500 scholarship. Our goal is to award up to six applicants per year.

We would like to ask you to donate to the scholarship fund. Please remember that donations are tax deductible. All donors and businesses will be acknowledged at the annual dinner dance when recipients will be announced.

We hope that this small investment in the future of Saint John the Baptist Church youth will result in a great return of preserving our youth’s interest in our Church and heritage, while encouraging them to build a successful professional future.

We look forward for your support.
